Discover the Power of Toshiba Digital Telephones
DP5000 Series

Enhanced Productivity for Today's Office

Digital Telephones That Help You Work Smarter

Keep your customers connected and productivity at its peak with Toshiba Strata® CIX™ DP5000 Series digital telephones. This complete line of feature-rich telephones offers sleek, functional design that fits into any environment. As easy to program as they are to use, digital telephones from Toshiba let you work smarter, reduce training time, and enhance productivity.

Select models offer:

- Large, backlit displays for superior readability in variable light environments
- Sleek low profile design and unique tilt-base for versatile phone placement

One-touch programmable buttons for fast access to advanced calling functions

Off Hook Call Announce through speaker or handset

- Pure sound clarity—whether you're using the handset or the speakerphone
- Programmable one-touch buttons for fast access to calling functions

- Onscreen prompts that help you complete common tasks
- Integrated Headset Interface

A Portfolio of Powerful Choices

Whether you are outfitting your executive offices, upgrading your call center, enhancing communications at a branch office, or gearing up a receptionist station, Toshiba's DP5000 Series has everything you need for managing calls across your enterprise. Convenient add-on modules let you enhance functionality for even greater flexibility.
